How To Order Prints

Please follow the form on the reverse side to let us know how you would like the photo montage created.

Prints should be arranged in the order you wish them transferred. Pictures should be numbered on the back of each print with a sticky note to ensure proper sequencing on the final video. It is helpful to us if you put the title of the song that corresponds to the photos on the first photo's sticky note.

Plastic zipper bags work great for grouping pictures together in their respective segments. It is also helpful to us if the music is placed in the bag with the photos.

If a photo is too large to be inserted in the group, please add a blank note card in the sequence with the rest of the photos describing the photo and add the appropriate numbered sticky note to that photo.

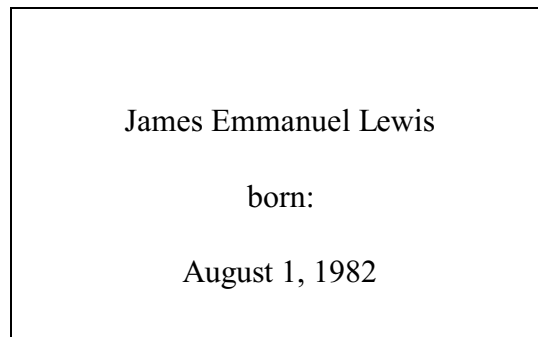

Example:

On the note-card: **"# 37 – 11x14 family photo in black frame"**

On the photo in the frame: **"Song #1 – Photo #37"**

If titles are to be inserted, at the beginning of the segment or between photographs, please show title contents on a piece of paper or card at least 3 inches by 5 inches. Please *print* title contents and try to center and align the titles as you would like to see them on the screen.
